Microsoft® Access 2010

Microsoft® Access 2010 is a fast & simple database solution that empowers you to make the most of your information and amplifies the power of your data. The Discover Microsoft® Access 2010 training suite consists of 3 self-paced tutorials that teach you how to use Access 2010 to quickly build databases and create more impactful forms & reports. As you progress through the tutorials, you will gain “hands-on” experience with Access 2010 in a simulated environment.

Benefits

- Learn how to access your application, data or forms from practically anywhere, apply professional designs to your Access database, & accomplish your work quickly & easily.
- Enjoy the flexibility of self-paced on demand training.
